Coach, Not Crutch

Practicing with AI taught clear writing better than practicing alone (d = .38), with 74% fewer keystrokes.

Identified by Jungjae Im and Jihyun Soh

AI Suggestions Homogenize Writing

AI autocomplete nudged Indian writers toward Western styles, flattening the cultural nuance in their writing.

Identified by Paola J. Sullivan, Mariana G. Rebello, and Sofia Villanueva

Whose Voice Is It Anyway?

GPT detectors flagged most non−native English essays as AI−written: one of three papers on who owns a text.

Identified by Zhongchi Li and Sooyeon Park
